## CL-UP-DOWN-WALL (250w) Exterior Direct/Indirect MH Fixture

Designed for illumination of exterior surfaces such as buildings and walkways, the CL-UP-DOWN-WALL utilizes a 250w Metal-Halide (MH) lamp to provide reliable lighting in locations with less than desirable temperature and weather conditions. A high-reflectance Miro IV specular reflector maximizes downward lumens output from the lamp.

The housing is built from durable yet light post-painted aluminum. Lamps are protected from the environment by framed 1/8" thick tempered glass on the top and bottom of the housing.

CL-UP-DOWN-WALL (250w)

All fixtures **CSA** approved.
