

CL-LUMIVERSA (2 Lamp T5HO)

CUSTOM LIGHTING LTD.

High-Bay Fixture

Ideal for both high and mid-bay applications, the CL-LUMIVERSA (2 Lamp) is engineered to utilize two T5HO / T8 / T8VHO lamps and a highly efficient specular Miro IV reflector. Features include:

- Luminaire housing made from galvanized or post-painted steel
- Numerous mounting capabilities: chain, aircraft cable, V-hook, and surface (with optional mounting kit)
- Narrow ballast cavity with venting for optimal heat dissipation
- Exceptional optical performance in a choice of narrow, medium, or wide distribution patterns
- Optional clear polycarbonate Lexan lens or post-painted wireguard to protect lamps and reflector
- Optional reflector uplighting

CL-LUMIVERSA (2 Lamp T5HO)

All fixtures **CSA** approved.
